## Good Georgian Chest of Drawers

This is a very elegant Georgian chest of drawers in Cuban mahogany. It has a well figured top over two short and three long drawers.

The brass handles are later, probably late 19th C, and are in the correct style for the piece.

There are no breaks in the sides or cracks in the top and the carved bracket feet have never been broken or cut down.

This is an attractive well proportioned Georgian chest of drawers with good rich colour and patina.
